

the intricacies of automotive document signings. Fast, secure, accurate. Go to our [Dealers home page](#) for more information and get started now!

Meet our Notary of the Month

Kenneth A. Edelstein is a New York Notary and a Certified Signing Agent, Apostille Processor and Expert Fingerprinter. I am a graduate of Pace University, majoring in Computer Science and Psychology. Formerly a Vice President and LAN Administrator, I retired after 25 years with Merrill Lynch. As a Microsoft Certified Systems Engineer (MCSE) and a Microsoft Certified Trainer (MCT) - I became a computer and document management expert. I have been appointed Arbitrator, Computer Disputes Panel, with the American Arbitration Association, New York Chapter. I am not an attorney, but am very familiar with New York Notary Law and procedures. My wife and I work as a team, using no messengers or other staff. We have built a solid reputation based upon our experience and professionalism. Our Corporate and individual clients call us repeatedly - based on our prior work. They know their documents will be notarized correctly in accordance with the Notary Laws of New York State. My hobbies are Photography, Amateur Radio, Camping, Chess and Motorcycle riding. I am also a soloed student pilot.

A Note From Maverick!

Ken has always provided Maverick Document Signings, Inc. nothing but the most professional service around. We appreciate Ken's dedication to his notary work and his dedication to providing his clients great customer service. Ken has a wonderful sense of humor and is always making our staff laugh. We enjoy working with Ken because we always know the job will get done and get done right the first time. It turns out that is it appropriate Ken be our August notary of the month not only to recognize his excellent services, but it is also his Birthday month.

Happy Birthday Ken and Thank you for being so easy to work with.

From all your friends at Maverick.

means to us is security. This service offers peace of mind knowing that our documents and customers are being handled by professionals. As you know, identity theft is very real and by using your service it significantly reduces that threat!"
